COMPANY PROFILE

CULTIVATING GROWTH, NURTURING RESILIENT LIVES

GET TO KNOW ANDREW, THE CEO

Andrew Moyo is a visionary leader and the driving force behind Seedgro Limited, a pioneering social enterprise company that he founded in 2021, dedicated to revolutionizing agriculture and fostering sustainable development. As the founder and CEO, Andrew has seamlessly blended his passion for agribusiness with a keen understanding of emerging technologies to create a company that stands at the forefront of certified seed production, agricultural advisory services, and market connectivity for rural farmers..

With a degree in Agribusiness Management from the University of Malawi, Andrew has over 6 years of comprehensive experience in various facets of the agribusiness value chain. His expertise spans seed multiplication, capacity building, Monitoring and Evaluation (M&E), environmental science, advocacy, data modeling, and data management. This diverse skill set has empowered him to navigate the complex intersection of agriculture, technology, and sustainability

Beyond the confines of his company, Andrew is an advocate for sustainable agriculture and biodiversity restoration. His work goes beyond profit, aiming to create a positive impact on the environment and the livelihoods of those dependent on agriculture.

Andrew Moyo's journey is a testament to the transformative power of blending traditional agricultural practices with innovative technologies. His leadership at Seedgro Limited reflects a commitment to building a resilient and sustainable future for farmers in Malawi and beyond.

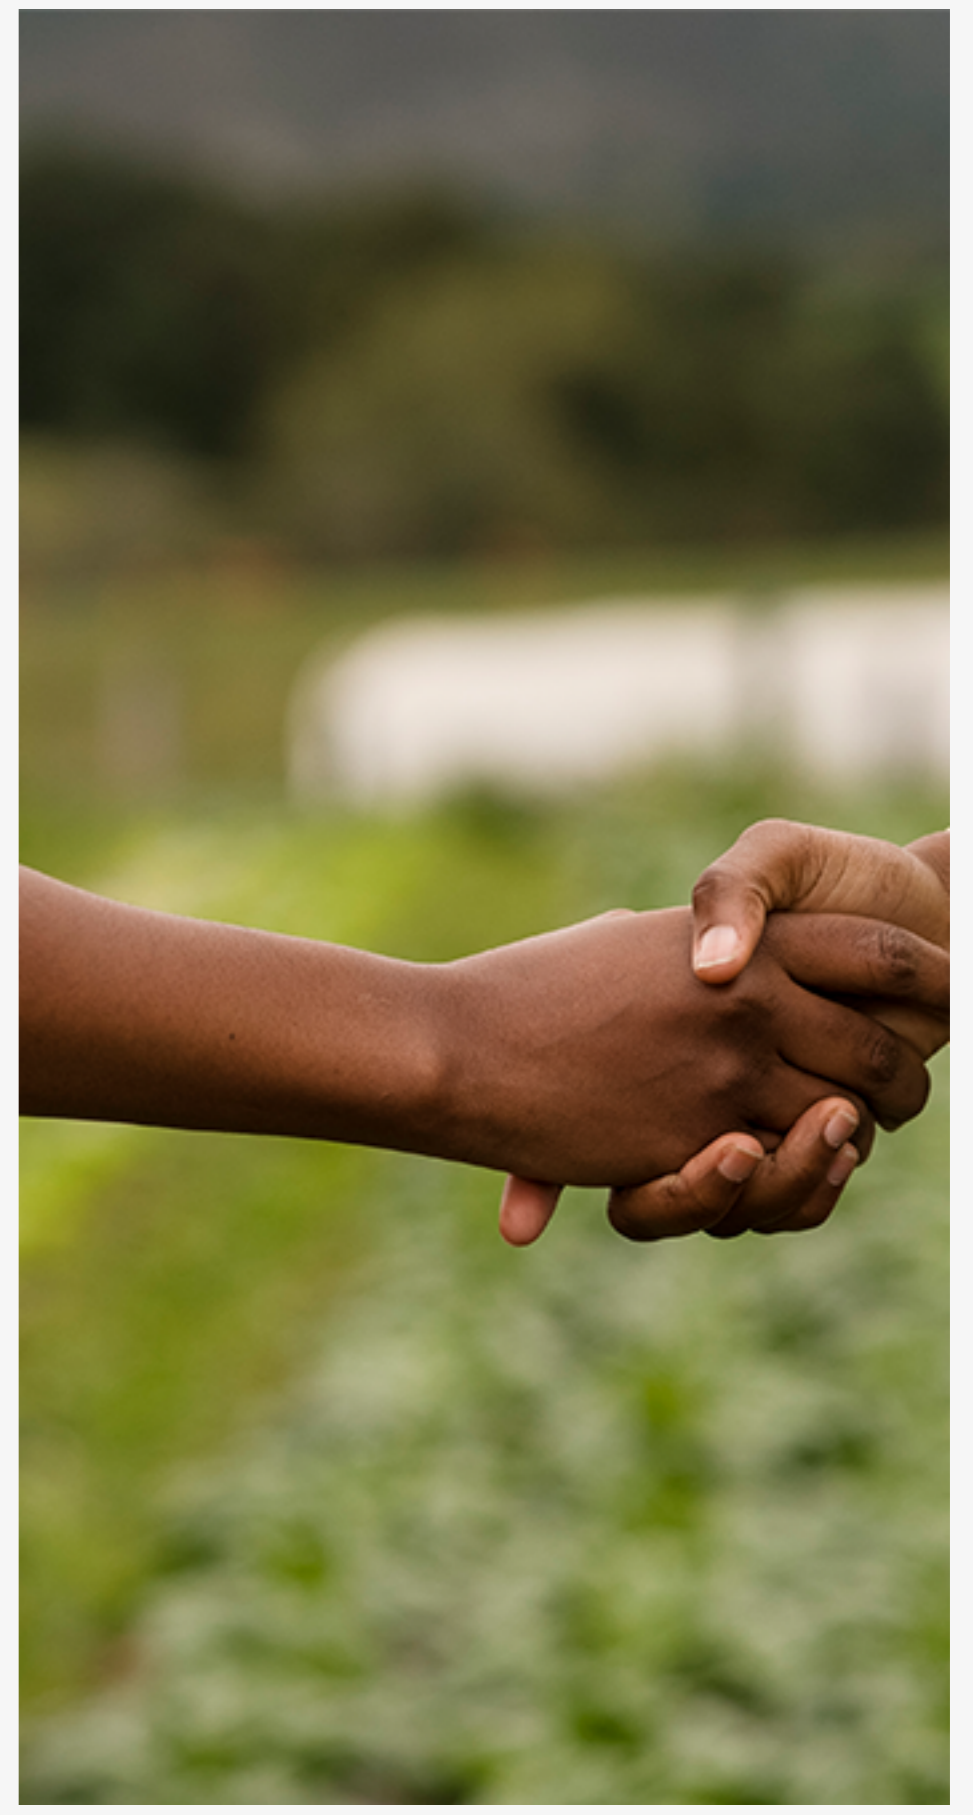

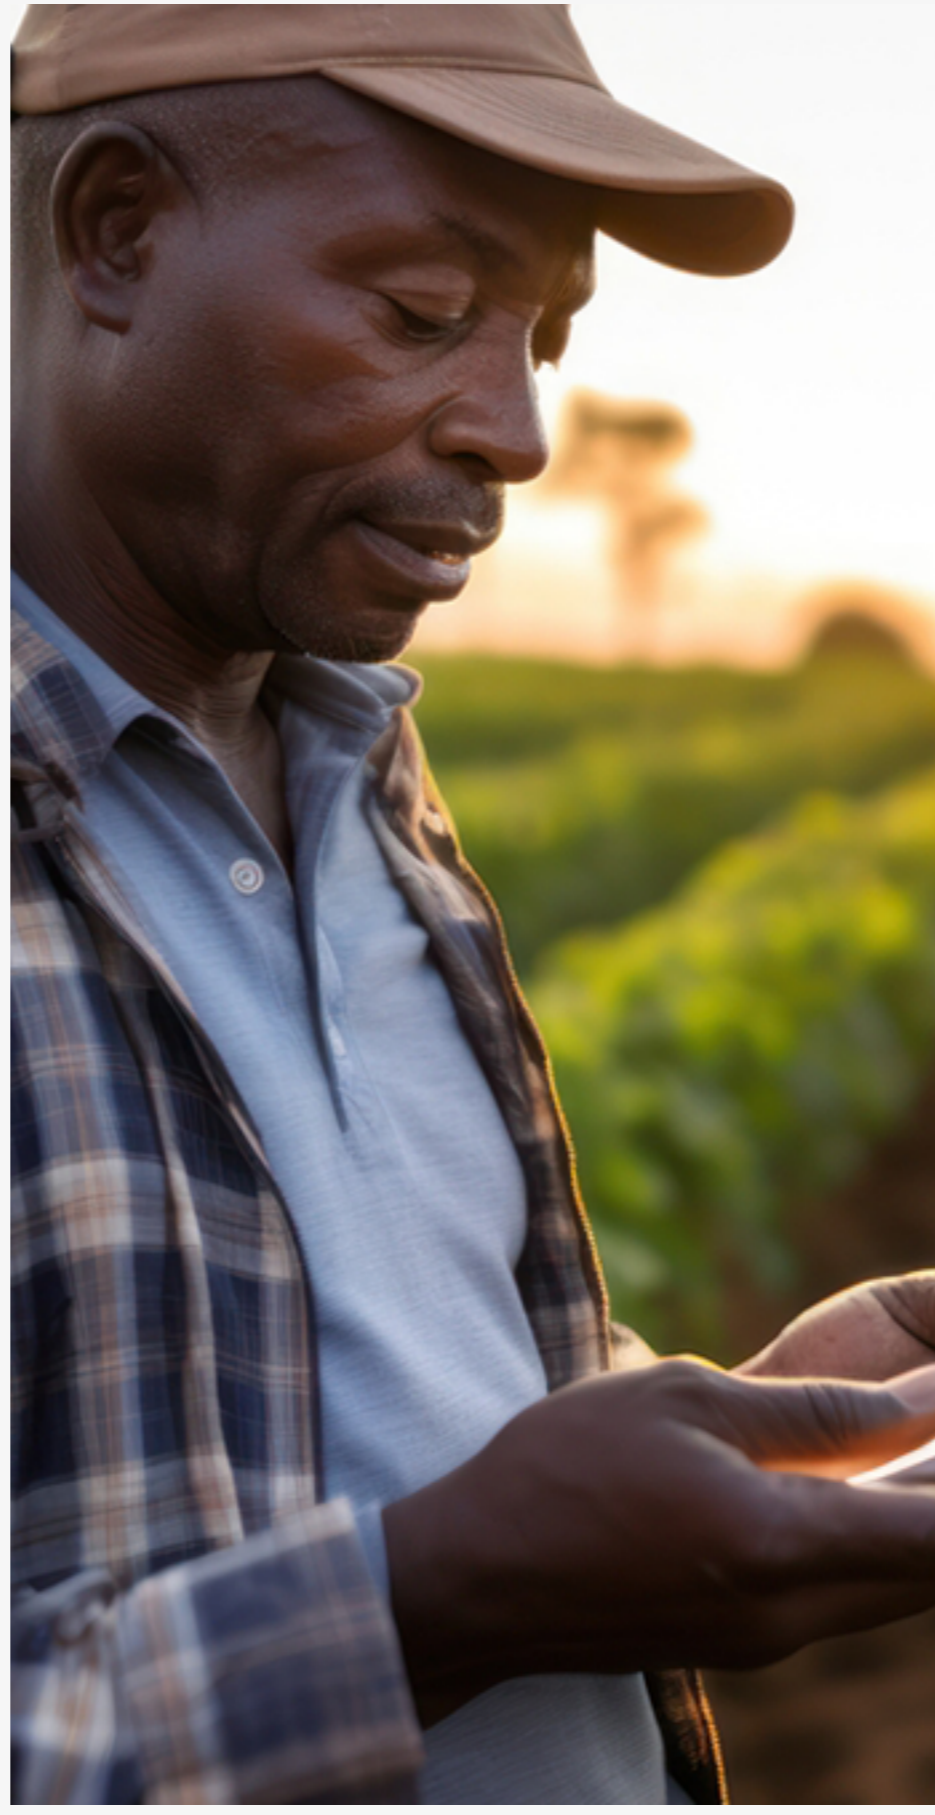

Seedgro, a privately held company established in 2021 and headquartered in Malawi, is a pioneering force in the agricultural sector. Our primary focus is on empowering farmers to achieve increased yields while making informed decisions for climate change resilience in sustainable agriculture.

To be a catalyst for positive transformation in the agricultural landscape, empowering farmers, enhancing productivity, and contributing significantly to global food security.

.

Seedgro is dedicated to empowering small-scale farmers by ensuring food security through the production of certified seeds. We leverage emerging technologies to enhance adaptation and resilience to climate change, fostering sustainable agriculture.

Our tagline

Cultivating Growth, Nurturing Resilient Lives.

Empowerment

Empowering farmers to thrive and achieve self-sufficiency.

Innovation

Embracing innovation to drive sustainable agricultural practices.

Integrity

Conducting business with transparency, honesty, and ethical standards.

Environmental Responsibility

Promoting practices that contribute to biodiversity and ecological balance.

Collaboration

Building partnerships to create a network of support for farmers.

Seedgro addresses the challenges of high farm input costs and limited access to certified seeds by multiplying affordable, climate-resilient certified legume seeds. We strive to enhance food security, restore natural ecosystems, and create economic resilience through sustainable agriculture practices.

Certified legume seeds:

High-quality, climate-resilient seeds for sustainable agriculture (Beans, Groundnuts, Soya beans)

Advisory Support Services:

Real-time guidance through AI-integrated mobile apps, IoT, SMS, and USSD.

Market Linkages:

Connecting farmers to competitive markets for increased profit margins.

Seedgro generates revenue through direct sales of certified seeds, commissions from market linkages, and subscription fees for advisory support services. This model ensures a sustainable and mutually beneficial relationship with our farmer community.

.

Seedgro collaborates with research stations, lead farmers, local agro-dealers, community members, and NGOs. These partnerships enable us to provide comprehensive products and services aimed at empowering farmers to achieve food security and resilience to climate change.

Our vision and mission align with SDG 2 (Zero Hunger), SDG 13 (Climate Action), and SDG 15 (Life on Land), emphasizing our commitment to making a positive impact on global challenges.

Seedgro boasts a dynamic team of young entrepreneurs with expertise in agribusiness value chains, seed multiplication, monitoring and evaluation, marketing, accounting, and software development. With over 5 years of collaborative teamwork, we are committed to delivering high-quality products and services to our valued customers. At Seedgro, we envision a future where farmers thrive, agriculture is sustainable, and communities are resilient in the face of climate change. Join us on this journey towards a more secure and sustainable agricultural future.
